NEWS FROM THE STATES, Etc. The latest news by the Jonathan from th States throws but little more light on the movements of the belligerents. If we go down the west side of the Mississippi we find in Arkansas small forces under several different commanders. Opposing them there is a Federal force at Helena: In that unimport tant quarter very little is transpiring. From Texas we hear nothing. In Louisiana there has been a fight between Taylor, Confederate and Banks, Federal, in which the latter i reported to have lost 6,000 men in prisoners This report comes from Richmond papers and awaits confirmation from Federal sources. But the loss of 6,000 men to Banks would scarcely be felt in his large force, and endangers to no appreciable extent Port Hudson the safety of New Orleans. It may be put down among the indecisive battles of the war whose name is Legion. What Breckinridge and McGruder are doing we are not informed; nor what Johnson is about Grant's forces at Vicksburg are suffering from sickness. From Rosecrans there i literally no news. So far, at the West and Southwest, Federal authority and prowess seem to be in the ascendant. Even the elections in Kentucky are going in favor of the Union in disaffected as well as in loyal districts. The moral support they will give to the Union cause will be equivalent to a victory like Vicksburg or Port Hudson. There seems to be no doubt about the Confederate soldiers in Tennessee and Mississippi deserting in great numbers. That is a most unfavorable indication of Southern feeling, show ing as strongly as the conscription in Massachusetts and Connecticut does that in neither extreme of the Union are the peo ple disposed to fill up the ranks of the shattered regiments on any side except they are compelled to do so by force. the Atlantic States of the Confederacy we find the belligerents waging active warfare in Charleston harbor. The Federals still hold their own; and are still intent on reducing Charleston to submission. At Savannah the Confederates are alarmed for their safety in as much as their forces are withdrawn to de fend Charleston, leaving the former city with out defences. But it is not likely that any serious attempt will be made to reduce Savannah till Charleston falls. The fall of the latter is a much more important matter to the Federals than the conquest of the former, at the present time. In point of loss of prestige to SARSAPARILLA, the South, the fall of Charleston would be next to the capture of Richmond. In North Carolina, the elections seem to be shaping towards the Union cause, and rebellio against the Confederacy, whilst the new State of Western Virginia has elected senators to congress, thus strengthening the Federal cause and surely extending the area of loyal territory. Lee has moved his army

up between the Rapidan and Rappahannock

What Meade is about is not told. Bu

beyond protecting Washington, and ex

pelling the Confederates from Marvland

and Pensylvania he has done nothing.

The great battle of Gettysburg was not fol-

lowed up. The Federals have not been able

under their new commander to injure the

retreating general any more than McClella

did after the fight at Antietam. To fight

and gain a battle and then fall on the de-

feated foe and thrash him well, is something

the Federals have not given us a brilliant

example of yet. Neither has Lee, if we ex-

Chickahominy to Turkey Bend, Both Lee

and Meade aprear to be re-organizing their

forces, and from the rigid conscription at

work both North and South, both seem in

need of it-but the latter probably much

nore than the former. Evidently Jefferson

Davis' government is hard pressed, when it is

rumored that the slaves are to have arms put

into their hands to stop the advance of

the new Northern conscription. So risky

an experiment would not be hinted a

except the Southern cause was in great dan-

ger. But it leaves no doubt as to the deter-

mination of the Confederates to use every

resource,-risk every danger rather than be

compelled to abandon the idea of independ-

ence. But with the Free States teeming

with men and money, and beyond the sacri-

fice of northern blood, comparatively free

from the evils of war, there seems to be

hopeless prospect for the South. In England

the recent successes of the Federals have

afforded cause for congratulation, that no

step has been taken towards intervention or

recognition, whilst the Queen's speech plants

the nation firmer on strictly neutral prin-

the driving of McClellan from the

Put up in Glass Phials, and warranted to

KEEP IN ANY CLIMATE.

These Pills are prepared expressly to operate in harmony with the greatest of blood purifiers, BRISTOL'S SARSAPARILLA, in all cases arising from depraved humors or impure blood. The most hopeless sufferers need not despair. Under the influence of these two GREAT REMEDIES, maladies that have heretofore been considered utterly incurable, sisappear quickly and permanently. In the following diseases these Pills are the safest, the quickeds, and the best remedy ever prepared, and should be at once resorted to.

Dyspepsia # Indigestion,

Liver Complaints,

Constipation,

Headache,

Dropsy,

Piles.

For many years these PILLS have been used

daily practice, always with the best results, and it is with the greatest confidence they are recommended to the afflicted. They are composed of the most costly, purest, and best Vegetable Extracts and Balsams, such as are but seldom used in ordinary medicines, on account of their great cost, and the combination of rare medicinal proporties is such that in long standing and difficult diseases, where other medicines have completely failed, these extra-

DR. HOSTETTER'S

STOMACH BITTERS

THE OPERATION OF THIS PALA Invigorate the System.

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and adisordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified? Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system regulating the secretions and excretions giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play. Otard, Pupuy & Co., in case. WHISKY - Scotch case, Stewart's, Brackla Sheeds & Gillons. Scotch cask, Crawford's Royal High land, Stewart's, Paisley, Stewart' Kirkliston, and the well known "Ard Strengthen the System.

The best means of imparting vigor to the broken lown frame and shattered constitution, which has ret been invented or discovered, is proffered to the ceble of both sexes and all ages Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be ured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific. A Word to the Aged.

In the decline of life the loss of vital force con sequent upon physical decay can only be safely sup-plied by some vivifying preparation which recruit the strength and spirits, without entailing the ex-haustion which is always the final effect of ordinary stimulants. We tender to the aged Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits. For Females.

Thousands of ladics resort to it as a remedy for hysteria, fluttering of the heart, nervious headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction. BEWARE OF COUNTERFEITS. Purchas

The report for the first six months ending 31st March, '63, was read by Mr. Ranson, the manager, and showed a highly satisfactory result considering the short time this establishment had been in operation. gross profits of the bank up to that date, after deducting rebate of interest on bills not due, amounted to £10,917 6s. 9d.; and after pay ment of current expenses, besides a considera ble sum that might with propriety have been charged to preliminary expenses, the statement exhibited a net profit of £5,210 3s. 9d. The chairman, upon submitting the report for adoption, congratulated the shareholders upon the fair balance of profit they were en abled to show in so short a period, but he wished to point out that about one-fifth of the net profit was on account of the sale of government debentures, a perfectly exceptional item, and one not likely to occur again. There item, and one not likely to occur again. There was also a total absence of bad debts—an exemption they could not always hope to maintain. Under the head of charges the directors had at once dealt with the current expenses and passage to the colony disbursed on account of the officers of the bank. There charges, apparently heavy (£5707 3s. 0d.) would be no more were the bank doing twice the business. Mr R. Gillespie, jr., having seconded the motion, the chairman replied to several enquiries from shareholders who expressed their satisfaction at the position of the bank and the rigid economy which had been observed in the conduct of the concern, the report was thereupon adopted, and the the report was thereupon adopted, and the retiring directors were re elected. her and Mr. Alison were re-elected as audi ber and Mr. Alson were re-elected as audi-tors; and a vote of thanks having been ac-corded to the chief officers of the bank for the efficient manner in which they had dis-charged their duties, a similar compli-ment paid to the chairman and directors, closed the proceedings.

San Francisco Market Report.

Widnesdat, Mornino, Aug., 6, 1863.

Trade with many of the interior mining districts of our own State has greatly fallen off the present season as compared with previous years. California merchants and traders from some of those regions who have hittento purchased their thousands, now buy but hundreds. Our trade with Nevada Territory, Orgon, British Columbia, Mexico, and other coast ports and markets of the Pracific, have increased fourfold, so that in the grand aggregate the business of the port has vastly augmented. The jobbers are doing a much larger volume of trade than heretofore, though with distant and more diversified fields, and of this trade a large bulk is for cash. We may also add that in our agricultural districts, as well as in many of the more prominent and leading towns and cities, trade is very prosperous, and everything denotes permanency. Increasing wealth and population are visible on every side, so that while trade and commerce wanes in some of the old placer mining localities, increased activity is plainly discernible in other portions of the State-mount of Eastern and foreign capital now seeking our shores for investment is very great. K NOWLEDGE IS POWER. IF YOU DE-NOWLEDGE IS POWER. IF YOU DEsire to preserve your health, a knowledge
of the laws for its preservation is essential. If
wea are ill, and have sought in vain for renewed
h th, what is the reason? Simply this, a want
information on the subject. The civilisation of
the present day renders some aid to nature in the
preservation and restoration of health indispensably necessary; and the only question is, whence
is the required help to be obtained? Undeubtedly, by using

Kaye's Worsdell's Vegetable Restora-

tive Pills. five Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily tradicate all disease from the body, by purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

ROUTE

The state of

WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar. 25 Miles

"Boston Bar to Lytton. 32½ "
Lytton to McLean's . 47½ "
McLean's to the Junction of the Wagon Roads. 19 "

The Junction
Is the point at which the Wagon Roads is tersect
each other, and where the Cariboo-bound traveller
by the Yale-Lytton and Douglas-Lillocet routes
MUST meet. It will, therefore, be seen by the above
figures that the traveller by YALE and LYTTON
has

THIRTY-THREE MILES LESS TRAVEL Than if he went by the Douglas-Lillooet Route.
